

**Avaya C3000
Release 3.1.1 (Build 7900)
Readme**

Dezember 2015

Notice

While reasonable efforts were made to ensure that the information in this document was complete and accurate at the time of printing, Avaya Inc. can assume no liability for any errors. Changes and corrections to the information in this document might be incorporated in future releases.

Documentation disclaimer

Avaya Inc. is not responsible for any modifications, additions, or deletions to the original published version of this documentation unless such modifications, additions, or deletions were performed by Avaya. Customer and/or End User agree to indemnify and hold harmless Avaya, Avaya's agents, servants and employees against all claims, lawsuits, demands and judgments arising out of, or in connection with, subsequent modifications, additions or deletions to this documentation to the extent made by the Customer or End User.

Link disclaimer

Avaya Inc. is not responsible for the contents or reliability of any linked Web sites referenced elsewhere within this documentation, and Avaya does not necessarily endorse the products, services, or information described or offered within them. We cannot guarantee that these links will work all the time and we have no control over the availability of the linked pages.

Warranty

Avaya Inc. provides a limited warranty on this product. Refer to your sales agreement to establish the terms of the limited warranty. In addition, Avaya's standard warranty language, as well as information regarding support for this product, while under warranty, is available through the Avaya Support Web site: <http://www.avaya.com/support>

License

USE OR INSTALLATION OF THE PRODUCT INDICATES THE END USER'S ACCEPTANCE OF THE TERMS SET FORTH HEREIN AND THE GENERAL LICENSE TERMS AVAILABLE ON THE AVAYA WEB SITE <http://support.avaya.com/LicenseInfo/> ("GENERAL LICENSE TERMS"). IF YOU DO NOT WISH TO BE BOUND BY THESE TERMS, YOU MUST RETURN THE PRODUCT(S) TO THE POINT OF PURCHASE WITHIN TEN (10) DAYS OF DELIVERY FOR A REFUND OR CREDIT.

Avaya grants End User a license within the scope of the license types described below. The applicable number of licenses and units of capacity for which the license is granted will be one (1), unless a different number of licenses or units of capacity is specified in the Documentation or other materials available to End User. "Designated Processor" means a single stand-alone computing device. "Server" means a Designated Processor that hosts a software application to be accessed by multiple users. "Software" means the computer programs in object code, originally licensed by Avaya and ultimately utilized by End User, whether as stand-alone Products or pre-installed on Hardware. "Hardware" means the standard hardware Products, originally sold by Avaya and ultimately utilized by End User.

License type(s)

Concurrent User License (CU). End User may install and use the Software on multiple Designated Processors or one or more Servers, so long as only the licensed number of Units are accessing and using the Software at any given time. A "Unit" means the unit on which Avaya, at its sole discretion, bases the pricing of its licenses and can be, without limitation, an agent, port or user, an e-mail or voice mail account in the name of a person or corporate function (e.g., webmaster or helpdesk), or a directory entry in the administrative database utilized by the Product that permits one user to interface with the Software. Units may be linked to a specific, identified Server.

Database License (DL). Customer may install and use each copy of the Software on one Server or on multiple Servers provided that each of the Servers on which the Software is installed communicate with no more than a single instance of the same database.

Shrinkwrap License (SR). With respect to Software that contains elements provided by third party suppliers, End User may install and use the Software in accordance with the terms and conditions of the applicable license agreements, such as "shrinkwrap" or "clickwrap" license accompanying or applicable to the Software ("Shrinkwrap License"). The text of the Shrinkwrap License will be available from Avaya upon End User's request (see "Third-party Components" for more information).

Copyright

Except where expressly stated otherwise, the Product is protected by copyright and other laws respecting proprietary rights. Unauthorized reproduction, transfer, and or use can be a criminal, as well as a civil, offense under the applicable law.

Third-party components

Certain software programs or portions thereof included in the Product may contain software distributed under third party agreements ("Third Party Components"), which may contain terms that expand or limit rights to use certain portions of the Product ("Third Party Terms"). Information identifying Third Party Components and the Third Party Terms that apply to them is available on the Avaya Support Web site: <http://support.avaya.com/ThirdPartyLicense/>

Preventing toll fraud

"Toll fraud" is the unauthorized use of your telecommunications system by an unauthorized party (for example, a person who is not a corporate employee, agent, subcontractor, or is not working on your company's behalf). Be aware that there can be a risk of toll fraud associated with your system and that, if toll fraud occurs, it can result in substantial additional charges for your telecommunications services.

Avaya fraud intervention

If you suspect that you are being victimized by toll fraud and you need technical assistance or support, call Technical Service Center Toll Fraud Intervention Hotline at +1-800-643-2353 for the United States and Canada. For additional support telephone numbers, see the Avaya Support Web site: <http://www.avaya.com/support>

Trademarks

Avaya, the Avaya logo, DEFINITY, MultiVantage, and COMPAS are either registered trademarks or trademarks of Avaya Inc. in the United States of America and/or other jurisdictions.

All other trademarks are the property of their respective owners.

Downloading documentation

For the most current versions of documentation, see the Avaya Support Web site: <http://www.avaya.com/support>

COMPAS

This document is also available from the COMPAS database. The COMPAS ID for this document is 171761

Avaya support

Avaya provides a telephone number for you to use to report problems or to ask questions about your product. The support telephone number is 1-800-242-2121 in the United States. For additional support telephone numbers, see the Avaya Support Web site: <http://www.avaya.com/support>

Avaya C3000 3.1.1 Readme

Avaya C3000 software 3.1.1 is the new release.
Have a deeper look into the product documentation and check this readme file for a quick overview and latest updates.

Release Overview

Avaya recommends that all C3000 customers come up to this release level as soon as possible to ensure they have a complete set of fixes.

The C3000 3.1.1 includes a redelivery of the entire C3000 product. Either it can be installed on top of an existing C3000 3.1, C3000 3.0.x, C3000 2.2 or be used for a new installation. For more information, see [Before You Install](#).

Please read this Readme before you install and configure C3000 3.1.1. It may contain information that is not provided in the C3000 3.1.1 documentation.

This Readme provides detailed installation instructions and configuration information. The Guideline provided with this minor release is designed to install all of the fixes in the C3000 3.1.1 conveniently.

For additional C3000 3.1.1 documentation information, please refer to:
C3000 3.1.1 Product Documentation

Hardware Requirements

C3000 Server

- Small installations (200 User , 4*S0)
 - recommended >= Dual Core CPU, 2GB RAM (Windows2012 min 4GB)
- Medium installations (500 User, 1*S2M)
 - recommended >= Quad Core CPU, 4GB RAM (Windows2012 min 8GB)
- Large installations
 - Project lead

C3000 Clients (Workstations)

- PC, min. Intel P4, 2,4 GHz
- min. 512 MB RAM (depends on OS)

ISDN Cards

- Dialogic Diva Server BRI-2M 2.0
- Dialogic Diva Server 4BRI-8M 2.0
- Dialogic Diva Server PRI-30M 2.0
- Dialogic Diva Server PRI-30M 3.0
- Dialogic Diva V-1PRI/E1/T1-30 HS PCIe

SMS Modems

- Siemens M20
- Siemens TC35 or MC35
- MC Technologies MC52i
- MC Technologies MC55i

Operating System Compatibility

C3000 3.1 is compliant with the following operating systems:

	Server	Workstation
Windows 2008 Server (64Bit)		
Windows 2008 Server R2 (64Bit), SP0-SP1	X	
Windows 2012 Server R2	X	
Windows 7 (32Bit + 64Bit)		X
Windows 8 (32Bit + 64Bit)		X
Windows 8.1 (32Bit + 64Bit)		X
Windows 10 (32Bit + 64Bit)		X
Windows 10 Update Threshold 2		X
Windows 2008 R2 Terminal server		X

(x) Windows Server 2003, XP, Vista no longer supported

Third Party Software Compatibility

Groupware server and -clients

- Microsoft Exchange 2007 / 2010 / 2013 / 2016
- Microsoft Outlook 2007 / 2010 (32Bit + 64Bit) / 2013 (32Bit + 64Bit) / 2016 (32Bit + 64Bit)
- Lotus Notes Domino Server R7.0, R8.0, R8.5, R9.0
- Lotus Notes Client R7.0, R8.0, R8.5, R9.0
- Novell GroupWise Server 7.0, 8.0, Groupwise2012, Groupwise2012 SP1

- Novell GroupWise Client 7.0, 8.0, Groupwise2012, Groupwise2012 SP1
- SAP Gateway
 - aktuelle SAP-Produkte auf der Basis von SAP NetWeaver 7.x (z.B. SAP ERP 6.0, SAP CRM 7.0)
 - ältere SAP-Produkte auf der Basis von SAP Web Application Server 6.x (z.B. SAP R/3 4.7, SAP CRM 3.0)
 - ältere SAP R/3-Releases (z.B. SAP R/3 4.6)

Directory Services

- Microsoft Active Directory ADS 2008 32+64Bit including ADLDS
- Microsoft Active Directory ADS 2012
- Novell eDirectory 8.5, 8.8
(Novell Console One 1.2d. Novell iManager 2.7 (Tomcat 5.5, Java 1.6))

Webbrowser

- Microsoft Internet Explorer 8.0, 9.0, 10.0,11 (see Known Issues)
- Mozilla Firefox 13,14,16,17, 20,42

Data base

- PostgreSQL 9.3.5

Miscellaneous

- Novell Netware Client 4.80
- Nuance Vocalizer 5.7 (TTS),
- Nuance Vocalizer for Enterprise 6.0 (TTS)

Driver

- Driver Dialogic Diva Server Suite 8.5.14
- Driver TE-Systems XCapi Version 3.5.59

Network Printer Windows 2012

- Install first "HP Universal Printing PS" Driver.
- Version v5.9.0 and V6.0.0 have been tested
- HP Driver loaded from http://www.hp.com/go/universalprintdriver_software – Windows Postscript – Win8 (32-Bit)/(64-Bit)

Hypervisor

- VMware Version ESX(i) 4.0 / 4.1 / 5.0 / 5.1 / 5.5 / 6.0
-

PBX Compatibility

C3000 3.1 is compliant with the following PBXs:

- AVAYA Communication Manager (ACM) ^{*1}
 - V6.0
 - V6.2
 - V6.3
 - V7.0

- Avaya Aura® Session Manager ^{*4}
 - V6.2
 - V6.3 noch nicht getestet
 - V7.0

- AVAYA IP Office ^{*2}
 - V7.0
 - V8.0
 - V8.1
 - V9.0.3
 - V9.1
 - V9.1.2 FP (Juni 2015)
 - V9.1.4

- Avaya Integral Enterprise Edition / Tenovis Integral I55 ^{*3}
 - E070 V08, E070 V09
 - L060 V07.x(IEE7)
 - L060 V08.x

^{*1} PBX link via S0/S2M or XCAPi (H.232)

^{*2} PBX link via S0 or XCAPi (H.232) or XCAPi (SIP)

^{*3} PBX link via S0/S2M or XCAPi (SIP)

^{*4} PBX link via XCAPi (SIP – TLS/SRTP)

All other PBXs, even released in former versions, are handled as project business.

New Features / Major Enhancements

3.1.1

- Support of Windows 10 (not XCAPI)
- Support of Windows 10 Update Threshold 2
- Support of IP Office 9.1.2 FP (Juni 2015), 9.1.4
- Includes new HAL with revised and faster rpc communication
- Support of VMWare ESXi 6.0
- Supports Aura Version 7.0
- Support of Microsoft Office 2016

Office Version	2016 - 32 Bit	2016 - 64 Bit	2016 - 64 Bit	2016 - 32 Bit	2016 - 32 Bit	2016 - 64 Bit	2016 -32 Bit
OS Version	Win 8.1 32 Bit	Win 8.1 64 Bit	Win 10 64 Bit	Win 8.1 64 Bit	Win 7 32 Bit	Win 7 64 Bit	Win 10 32 Bit
Installation - Druckertreiber	JA	JA	JA	JA	JA	JA	JA
Installation - Druckertreiber Silentmode	JA	JA	JA	JA	NEIN	NEIN	JA
Drucken - Outlook FAX	JA	JA	JA - Office 16.6001.1034	JA - Office 16.6001.1034	JA	JA	JA
Drucken Outlook FAX - PDF	JA	JA	JA	JA	JA	JA	JA

Drucken Outlook MAIL	JA	JA	JA	JA	JA	JA	JA
Drucken Outlook MAIL - PDF	JA	JA	JA	JA	JA	JA	JA
Installation - Outlook Addin	JA	JA	JA	JA	JA	JA	JA
Formulare öffnen	JA	JA	JA	JA	JA	JA	JA
Formulare öffnen mit ausgewählten Kontakt	JA	JA	JA	JA	JA	JA	JA
Formular erneut senden (FAX und SMS)	JA	JA	JA	JA	JA	JA	JA
Installation - Wav2Phone	JA	JA	JA	JA	JA	JA	JA
Wav2Phone aktivieren	JA	JA	JA	JA	JA	JA	JA
Wav2Phone abspielen	JA	JA	JA	JA	JA	JA	JA
Drucken über umSBmail.exe	JA	JA	JA	JA	JA	JA	JA

- Support of Microsoft Exchange 2016
- Error Reporting changed from PEM to Jira C3000 Bugs
- SMTP Connector Option StartTLS added
- Changed from Tomcat 7.0 to Tomcat 8.0.26
- Actual Java Version 1.7.91
- Actual XCAPI Version 3.5.59
- Support of PostgreSQL Streaming Replication (project – additional documentation available)
- Support of Nuance Vocalizer for Enterprise 6.0 (tts)

- **Fixed problems:**

Key	Summary
C3000UMS-125	SMS Gateway hat Probleme mit Umlauten
C3000UMS-95	Anlegen größerer Dokumente schlägt z.T. fehl
C3000UMS-94	C3000 Reporting mit Oracle Datenbank
C3000UMS-93	Qualität des Druckertreiber
C3000UMS-91	Fehler im UMnprint.exe beim Zugriff auf bestimmte Adressbücher
C3000UMS-90	Kein Reconnect des C3000 Server zum PostgreSQL
C3000UMS-89	LogJam
C3000UMS-84	Webadmin: Fax Rendering Subtyp x-vcard nicht vorhanden
C3000UMS-83	Migrationstool funktioniert nicht ohne den Login "Administrator"
C3000UMS-59	Port 5061 (SIPS) schwache Verschlüsselungs-Algorithmen
C3000UMS-50	C3000 (bzw. Networkprinter) erzeugen Fehlermeldungen im PostgreSQL Log
C3000UMS-49	Temporäre Dateien werden nicht gelöscht, wenn mehrere Eventscheduler am C3000 Server aktiv sind
C3000UMS-48	C3000 Server Crash wenn mehr als ein Eventscheduler und FOP aktiv
C3000UMS-44	Warnung im C3000 Server „Malformed forwardcopy-rule“ trotz inaktiver Regel
C3000UMS-43	C3000-Server-Zertifikat schwache Schlüssellänge
C3000UMS-42	Port 8443 schwache Verschlüsselungs-Algorithmen
C3000UMS-39	UM Server Setup
C3000UMS-38	Deaktivierte Benutzer löschen
C3000UMS-34	Feld Tätigkeit/Funktion im Webadmin für AD Intergration > 30

C3000UMS-18	localhost
C3000UMS-17	#412 FaxMail Pro / OneXPortal auf einem System
C3000UMS-16	#411 Poodle Bug
C3000UMS-11	UMprint.exe startet splwow64.exe als Childprozess
C3000UMS-10	Auftrag erneut senden funktioniert nicht richtig
C3000UMS-3	Reporting nutzt alten Usernamen, auch nach Namenänderung

Discontinued Features

- Windows 2003 Server is no more supported
- Funktion - TUI-Messagestore über MAPI mit OL2016/MSX2016 – wird nicht weiter supported.

Restrictions and Recommendations

- Not Supported: GroupWise 2014, GroupWise 2014 R2
- ASR is not supported with C3000 3.1.1
- OCR is not supported with C3000 3.1.1
- IP Office Version 9.1.6 later
- Silent Installation of printer driver only is ok. With Windows 8.1, 10
- C3000 3.1.1 is not released for any Ghostscript version in x64 technology. We strongly recommend Ghostscript v9.18 (32bit)
- The Microsoft Security Patch KB2538243 is needed on every client PC using C3000 client applications. If this patch isn't installed you have to install the Microsoft VC Runtime manually. You'll find this packages at the C3000 3.1.1 DVD:
Server\Microsoft\VCredist\vc2008\KB2538243
- C3000 3.1.1 is not a BCC 4.0/UMR1.0 Update Release.
- C3000 systems which are connected to PBXs via XCAPi don't support colored faxes.
- Due to problems with ISDN card colored faxes are disabled
- ECM Hint for FaxMailPro/C3000 connected to IP Office
The Error Correction Mode (ECM) is the base for a qualitative high-valued fax transmission. Transmissions to devices without ECM can not be guaranteed to be in high quality and that longer transfers (more pages) be without interruption.

- C3000Fax printer doesn't support serial Letter with protected PDF Files
- C3000Fax printer doesn't support File-Format: "PDF with protected PDF Files.
- Nuance Vocalizer 5.7 (TTS) – only new installs – updates not tested
- Nuance Vocalizer for Enterprise 6.2 not yet supported
- XCAPI / SIP connected to IE: if you encounter problems receiving fax the set in gifax.cfg the variable maxBitRate to 9600
- Notes/Domino supported on Windows 8 and Windows Server 2012 begins with IBM Notes/Domino 9 Social Edition.
- No Support for ASR and TTS by Nuance for Windows 2012
- To get mail via phone a 32 bit Mapi (eg Outlook) email account is needed by the communication gateway server. Clients support 64 bit Outlook.
- An upgrade from C3000 1.7 direct to C3000 3.1.1 is actually not supported. The upgrade has to be via upgrade to C3000 2.1 and then C3000 3.1.1
 - Damit beim Faxdruckertreiber der MAPI Aufruf mit Outlook 2016 funktioniert. (Win8.1 64 Bit, Outlook 2016 32 Bit) wird min. die Version Office 16.6001.1034 benötigt.

TomCat Version 8.0.26

Before installation please read C3000_311_install manual.

Virtualization

C3000 can be virtualized. The benefits include ease of maintenance, greater portability and making programs easier to deploy across several versions.

The only supported virtualization environment is VMware Version ESX(i) 4.0 / 4.1 / 5.0 / 5.1 / 5.5 / 6.0

High Availability/Fault Tolerance

C3000's High Availability is realized by virtualization with VMWare vCenter/ESXi 5.0 / 5.1 / 5.5 / 6.0

See

▲ Whitepaper C3000 3.1.1 Virtualisierung

Test of VMWare 6.0 FT with more than 1 vCPU (<4vCPU) is not done yet but planned for Q1 CY2016.

Installation

This section describes the installation process which is completely based on setups. There is no difference between a new installation and an update: You use the same setups called by the guideline user interface in both cases.

Getting Started

The software can be downloaded from Avaya Support Website

here

https://support.avaya.com/downloads/downloads-landing.action?product_id=P0379&product_name=C3000%20Unified%20Messaging&release_number=releaseld&contentType=Solutions

or from PLDS.

▲ Important: The name of the installation directory must not contain special characters, such as a hash (#) for the installation to run successfully. Please use directory names with alphanumerical characters only e.g. D:\Install\C3000\31

▲ Important: C3000 3.1.1 only supports updates from C3000 2.2 or C3000 2.1. C3000 2.1 only supports updates from C3000 1.7 SP2 or higher. Customer installations with older versions have to migrate to C3000 1.7 SP2 first.

Server Installation

This section describes the installation procedures for the C3000 3.1.1 Server components. This section includes the following topics:

- Stop C3000 Servers
- Installation Procedures

Stop C3000 Servers

Before you run the C3000 3.1.1 Server installation, ensure that all C3000 server processes are stopped. This may take several minutes because the servers need to complete their current tasks before shutting down.

All setups that update C3000 services will stop them during installation. Nevertheless it is strongly recommended to stop all C3000 services in advance manually for security reasons and because it will make the installation process faster (no parallel reconnect sessions will run).

To stop C3000 Services:

Bring up the Windows Services application.

Stop all of the following services (not all of them exist on every C3000 server):

- Apache Tomcat
- All services starting with “C3000”
- All services starting with “RoD”
- All services starting with “Avaya”
- All services starting with “Tenovis”

 **Important:** Please don't stop the PostgreSQL Database service “C3000 PostgreSQL 9.3”. This service is needed during updates.

Installation Procedures

 **Important:** In case of an update from C3000 1.7 SP2 please take care that at least 1GB free disk space is available on the host where the Sybase SQL server is installed. Due to problems when directly updating database engine from Sybase 12.5 to Sybase 15.7 You must first update to Sybase 15.0 (by C3000 2.1 setup) and then update to C3000 3.1.1

Perform the following steps on the Windows machines running C3000 servers.

Open the **C3000 3.1.1 - Server** folder and double-click **Guideline.exe** to start the installation program.

At the **Welcome** screen, select **Next** to continue.

At the next screen which displays the license agreement, select **I agree**.

 **Important:** Depending on the operating system and already installed components and programs the **Guideline** will update the **Microsoft Windows Installer** and install **Microsoft Visual C++ Runtime Libraries**. This installation is required, so please confirm.

At the next screen which displays different installation packages expand the **custom** tree for installation details. Different icons on each installation package show what component needs an update or not:

-  (green) Installed version is OK and needs no update
-  (red/blue) Installed version is too old and needs an update
-  (yellow) Installed version is old but compatible. An update is not needed but recommended
-  (red/black) Ignore these setups – they are not installed on this machine
-  (red/black R) Not installed, but required. Please install.
-  (directory) No setup, nothing will be installed. Button opens directory in explorer window

It is recommended to use the AutoUpdate functionality within the guideline.

After a successful update on this machine all components show  (green) or  (red/black). Click **End**.

In case of error messages during one or more component updates have a look at respective install log files (depends on setup):

- User TEMP folder
- C:\C3kInstallLogs

If the installation is unsuccessful, try to isolate the error causes and re-run the installation program. If the problem still occurs see [Technical support](#)

 **Important: In case of using mail server components and a database on different server you have to install a separate Sybase client. Choose “PostgreSQL Client x86/x64” via Guideline ...**

Server Auto Update

C3000 3.1.1 offers an Auto Update Mode as part of the application Guideline. Check out the C3000 3.1 documentation for detailed information.

 **Important: In case of an update from C3000 1.7 SP2 please update these setups first before starting the auto update:**

- Java Development Kit
- Sybase SQL Server

Restart C3000 Server

If the installation is successful, reboot the machine. The C3000 server will start automatically.

Documentation

C3000 3.1 contains an update of documentation and user manuals:

German:

- c3000_311_admin_de.pdf (updated)
- c3000_311_essentials_de.pdf (updated)
- c3000_311_install_avaya_i5_de.pdf
- c3000_311_install_cisco_callmanager_de.pdf
- c3000_311_install_de.pdf (updated)
- c3000_311_install_siemens_hipath4000_de.pdf
- c3000_311_ttrace_install_de.pdf
- c3000_311_ttraceconsole_de.pdf
- c3000_311_user_groupwise_de.pdf
- c3000_311_user_notes_de.pdf
- c3000_311_user_outlook_de.pdf

Virus scanner conformity

C3000 3.1 has been tested on conformity with following virus scanner:

- McAfee VirusScan V8.5.0i, V8.7.0i, V8.8.0 Patch 6 for Windows 10

No negative impact has been assessed by the conformity tests when operating the C3000 system. The virus scanners can thus be used on C3000 servers and workstations without functional restrictions of the C3000 system.

As far as the C3000 system's performance is concerned, severe impairments have been registered. The results were strongly depending of the computing power and of the C3000 system's load. We recommend daily virus scan runs out of office hours.

The C3000 scanner conformity has been tested on the listed scanners only. A conformity with other virus scanners cannot be deduced from these tests.

Fixed Issues

The following table lists the fixed issues.

3.1.1

Key	Summary	Assignee	Reporter	Priority	Status	Resolution
C3000UMS-3	Reporting nutzt alten Usernamen, auch nach Namenänderung	Wellnitz Rene (Rene)	Schlecker Klaus (Klaus)	P3 - Normal Queue	Closed	Fixed
C3000UMS-10	Auftrag erneut senden funktioniert nicht richtig	Wellnitz Rene (Rene)	Wellnitz Rene (Rene)	P3 - Normal Queue	Closed	No Fix Planned - 3rd Party
C3000UMS-11	UMprint.exe startet splwow64.exe als Childprozess	Burchert Rainer (Rainer)	Burchert Rainer (Rainer)	P3 - Normal Queue	Closed	Fixed
C3000UMS-33	#407 CEC-015 Authentication: Speichern von User/Password im WEB-Browser	Stadler Stephan (Stephan)	Schlecker Klaus (Klaus)	P3 - Normal Queue	Closed	Fixed
C3000UMS-48	C3000 Server Crash wenn mehr als ein Eventscheduler und FOP aktiv	Burchert Rainer (Rainer)	Burchert Rainer (Rainer)	P3 - Normal Queue	Resolved	Fixed
C3000UMS-49	Temporäre Dateien werden nicht gelöscht, wenn mehrere Eventscheduler am C3000 Server aktiv sind	Burchert Rainer (Rainer)	Burchert Rainer (Rainer)	P3 - Normal Queue	Resolved	Fixed
C3000UMS-50	C3000 (bzw. Networkprinter) erzeugen Fehlermeldungen im PostgreSQL Log	Wellnitz Rene (Rene)	Wellnitz Rene (Rene)	P4 - Low Priority	Closed	Fixed
C3000UMS-83	Migrationstool funktioniert nicht ohne den Login "Administrator"	Wellnitz Rene (Rene)	Wellnitz Rene (Rene)	P3 - Normal Queue	Closed	Fixed
C3000UMS-84	Webadmin: Fax Rendering Subtyp x-vcard nicht vorhanden	Wellnitz Rene (Rene)	Wellnitz Rene (Rene)	P4 - Low Priority	Closed	Fixed

C3000UMS-90	Kein Reconnect des C3000 Server zum PostgreSQL	Burchert Rainer (Rainer)	Burchert Rainer (Rainer)	P3 - Normal Queue	Resolved	Fixed
C3000UMS-91	Fehler im UMNprint.exe beim Zugriff auf bestimmte Adressbücher	Stuehrenberg Andreas (Andreas)	Burchert Rainer (Rainer)	P3 - Normal Queue	Closed	Fixed
C3000UMS-94	C3000 Reporting mit Oracle Datenbank	Wellnitz Rene (Rene)	Wellnitz Rene (Rene)	P3 - Normal Queue	Closed	Fixed
C3000UMS-95	Anlegen größerer Dokumente schlägt z.T. fehl	Watermann Bernd (Bernd) **CTR**	Watermann Bernd (Bernd) **CTR**	P3 - Normal Queue	Closed	Fixed
C3000UMS-125	SMS Gateway hat Probleme mit Umlauten	Wellnitz Rene (Rene)	Wellnitz Rene (Rene)	P3 - Normal Queue	Resolved	Fixed
C3000UMS-130	DbOra10s.dll	Stuehrenberg Andreas (Andreas)	Schlecker Klaus (Klaus)	P3 - Normal Queue	Closed	Fixed
C3000UMS-135	Konvertierung von PDF mit "%20" im Dateinamen schlägt fehl	Burchert Rainer (Rainer)	Burchert Rainer (Rainer)	P1 - Resolve Immediately	Closed	Fixed
C3000UMS-139	Schwache Cipher-Suites bei Port 8443 (Logjam-Exploit)	Stuehrenberg Andreas (Andreas)	Stadler Stephan (Stephan)	P3 - Normal Queue	Closed	Fixed

Known Issues

C3000 aktuell offene Fehler <https://jira.forge.avaya.com/issues/?filter=62899> in Jira

Microsoft Internet Explorer 10.0

`http://<servername>:8080/c3000/index.html` must be opened in compatibility mode due to problems with java script when configuring C3000 user data

C3000Fax Form:

- Sometimes add File Dialog deletes any address in the TO/CC/BCC fields. Best Praxis is to add File first and add addresses later
- Sometimes Outlook (2010/2013) closed when the form is canceled. Don't search online for a solution. Don't deactivate any C3000 COM-Add-Ins: (Redemption, C3000FaxCOMAddIn, C3000SmsCOMAddIn, Wav2Phone).

Technical Support

In case of having trouble with C3000 3.1.1 please:

1. Retry the action. Carefully follow the instructions in written or online documentation.
2. Check the documentation that came with your hardware for maintenance or hardware-related problems.
3. Note the sequence of events that led to the problem and the exact messages displayed. Have the Avaya documentation available.
4. If you continue to have a problem, contact Avaya Technical Support by calling Avaya Technical Support: Germany (+49) 0800 4628292.
You may be asked to email one or more files to Technical Support for analysis of your application and its environment.

Note: If you have difficulty reaching Avaya Technical Support, please go to support.avaya.com for further information.

Avaya Global Services Escalation Management provides the means to escalate urgent service issues. For more information, see the Escalation Contacts listings on the Avaya Web site.
